Cassava root yield depends on planting and harvest months. This tool contains tables with advice for planting and harvest months for the scheduled planting use case. For every state and LGA, a table is generated by planting month, indicated as a title of the table. The expected root yield in t/ha for harvest in 8, 9, 10, 11, 12, 13, 14 and 15 months after planting are given as columns in the tables.
